SIT_page File

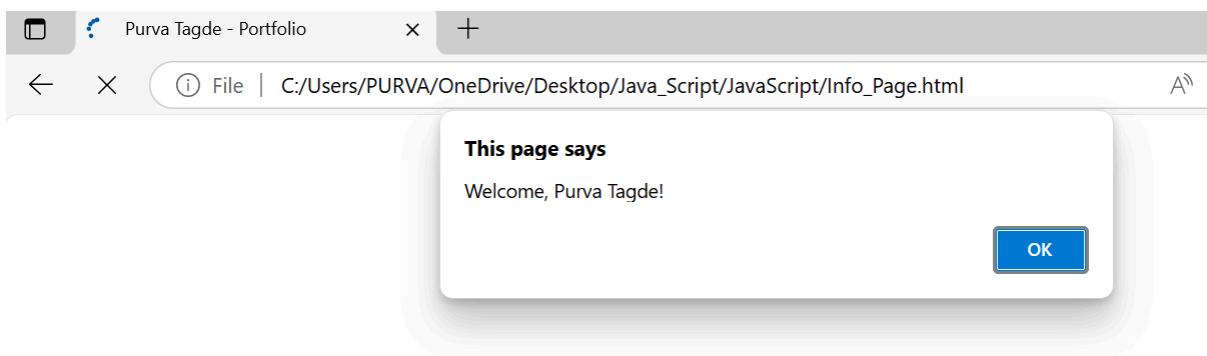

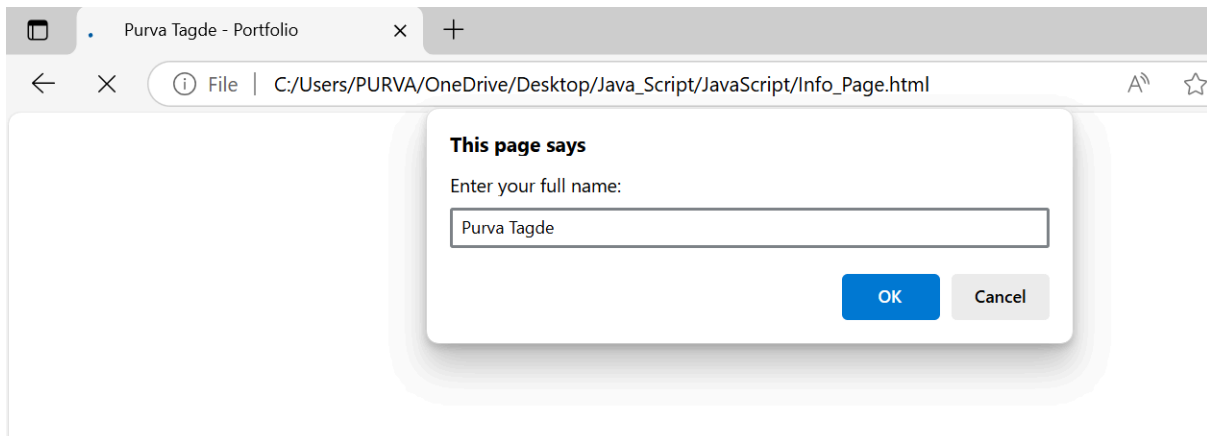

A screenshot of the Visual Studio Code editor interface. The top menu bar includes File, Edit, Selection, View, Go, Run, and a search icon. The breadcrumb path at the top reads: JavaScript > SITPage.html > html > body > script. The file explorer on the left shows a project structure with files: Welcome, Lab1.html, lab2.html, JS lab2.js, SITPage.html (selected), Info_Page.html, and Info_Page.css. The editor window displays the code for SITPage.html, with line numbers 1 through 27. The code includes an HTML document structure with a title 'Main Site', a welcome message, a link to 'Info_Page.html', and two JavaScript functions: welcomeUser() and askFullName().

```
1 <!DOCTYPE html>
2 <html>
3 <head>
4     <title>Main Site</title>
5 </head>
6 <body onload="welcomeUser()">
7     <h1>Welcome to SIT</h1>
8     <p>Click the below link for my profile:</p>
9     <a href="Info_Page.html">Purva_Tagde</a>
10
11     <script>
12         function welcomeUser() {
13             alert("Welcome!");
14         }
15         function askFullName() {
16             let fullName = prompt("Enter your Fullname:");
17             if (fullName) {
18                 localStorage.setItem("userFullName", fullName);
19                 console.log("Full Name Entered: " + fullName);
20                 return true;
21             } else {
22                 alert("Compulsory!,cannot be empty!");
23                 return false;
24             }
25         }
26     </script>
27 </body>
28 </html>
```

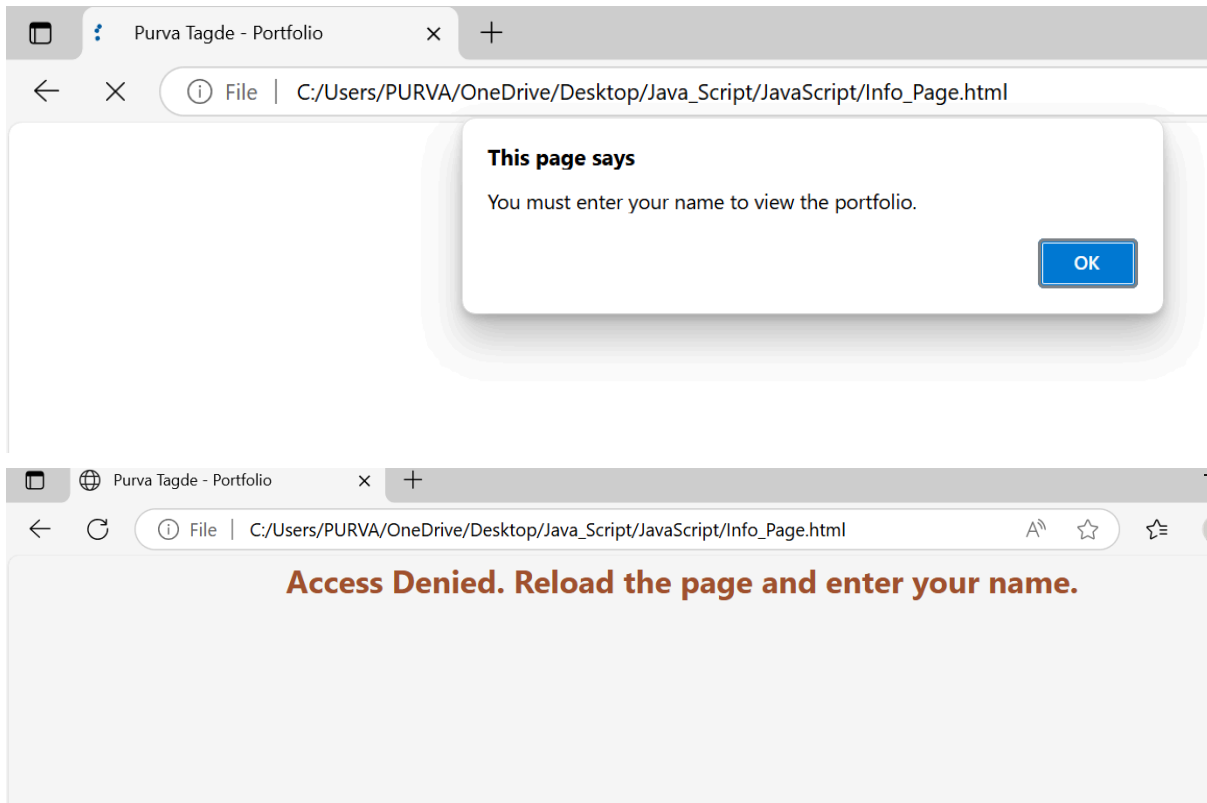

Website

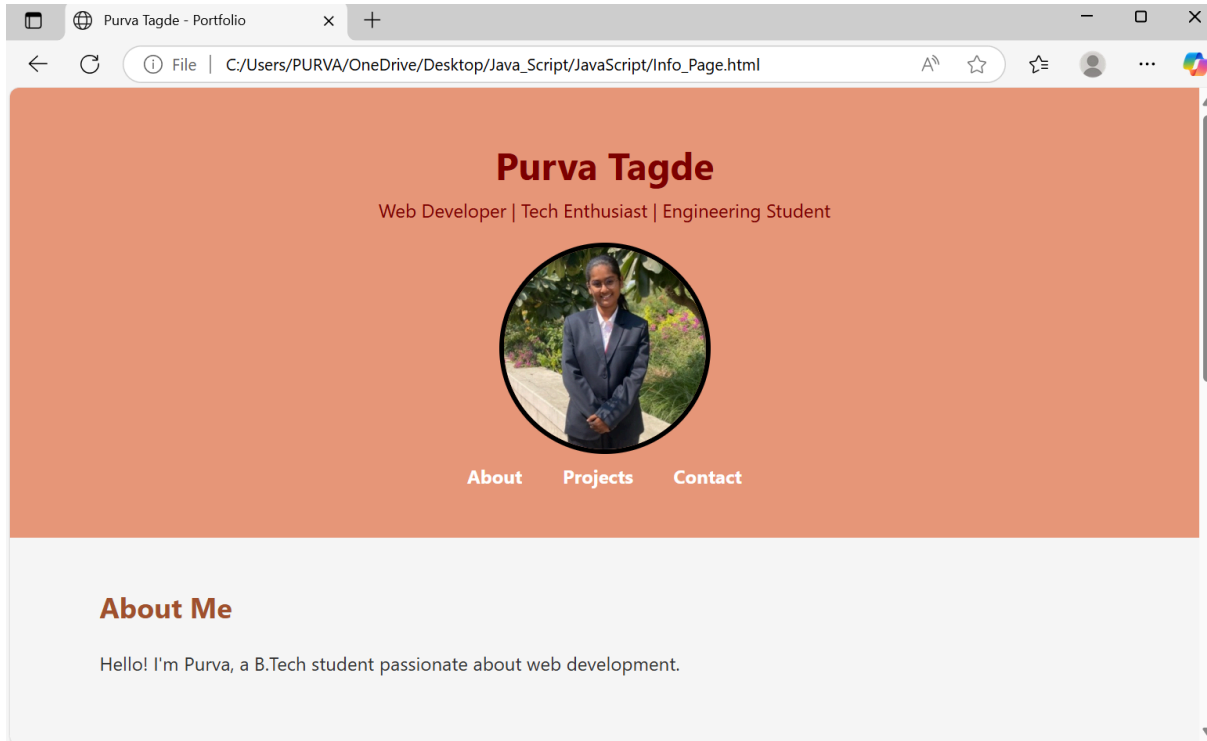

If name entered:

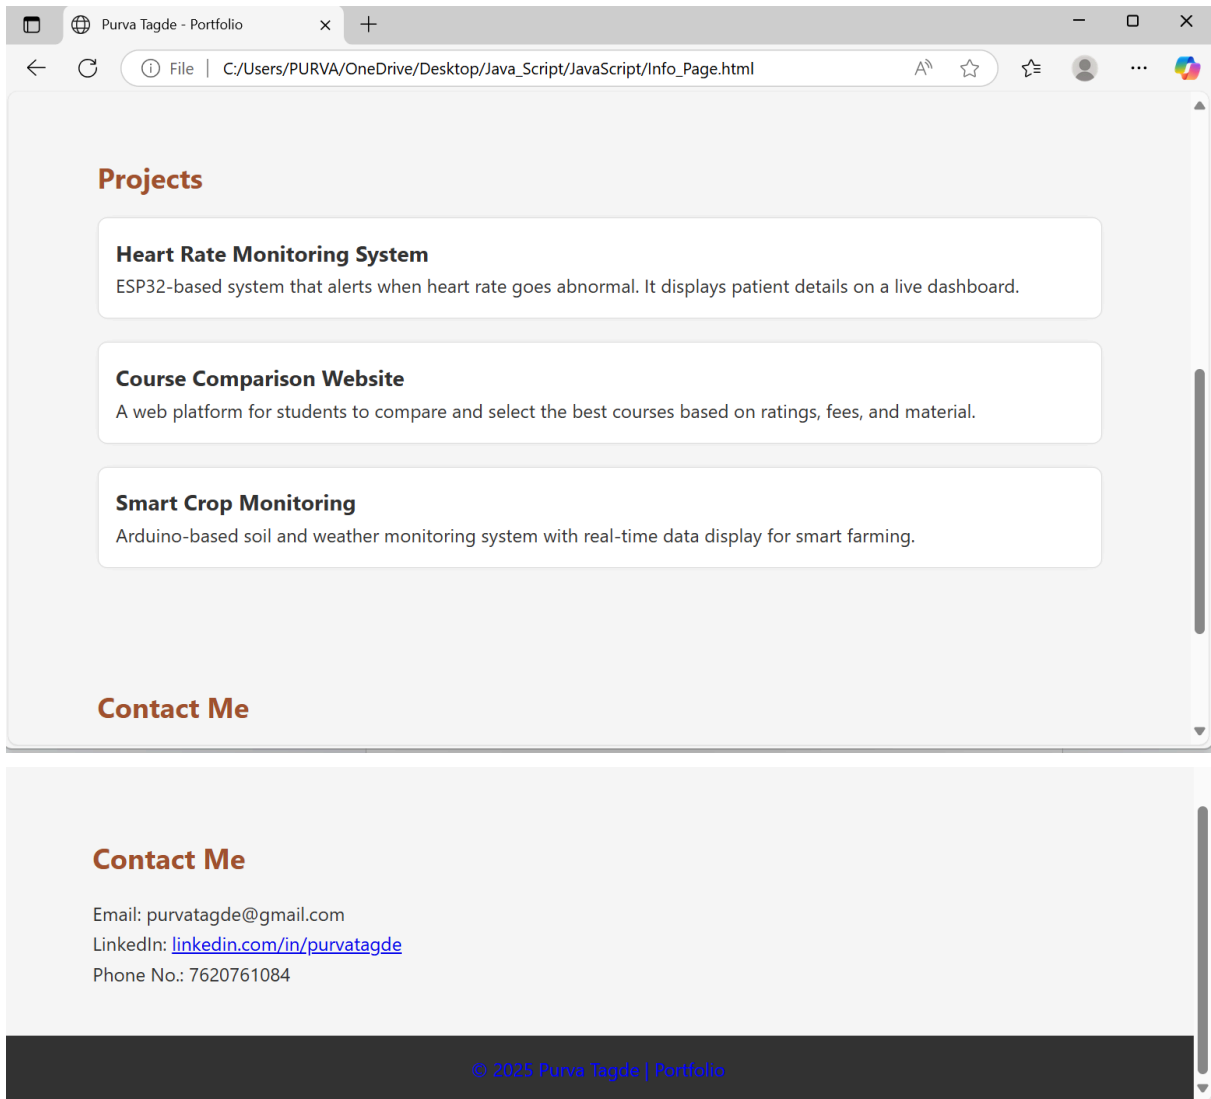

If name not entered:

Profile Website:

Projects

Heart Rate Monitoring System

ESP32-based system that alerts when heart rate goes abnormal. It displays patient details on a live dashboard.

Course Comparison Website

A web platform for students to compare and select the best courses based on ratings, fees, and material.

Smart Crop Monitoring

Arduino-based soil and weather monitoring system with real-time data display for smart farming.
